

Bachelor of Science in Chemical Engineering

Department of Chemical and Environmental Engineering

Program Educational Objectives

- Objective 1:** Graduates will become practicing engineers who succeed and advance within their companies, institutes or agencies.
- Objective 2:** Graduates will succeed in graduate school in chemical engineering or related disciplines, such as materials science, biomedical engineering, or environmental engineering.
- Objective 3:** Graduates will continue to be engaged in life-long learning to increase their skill set in developing and implementing engineering solutions to benefit society.
